

Sign up for an IDEC Knowledge Network!

Contact a KN Leader below to get on their communications list. Share this list with other IDEC friends and colleagues!

What are Knowledge Networks?

Knowledge Networks are groups that share an interest in a particular topic. Meetings provide a space for members to come together to discuss ideas, issues, teaching, and scholarship.

What are meetings like?

Monthly meetings are virtual and informal and are centered around creating an academic community. All are welcome!

How do I join a Network?

Contact the Network Leader listed on the right and they will add you to their list. You can join as many networks as you'd like to!

How do I propose a new network or express interest in being a leader or co-leader?

Contact Chair of Knowledge Networks, Jessica Bonness, jbonness@marymount.edu for these or other questions.
